GRAIN CLEANER

Optimized sifting

AgriCAD's GC120 static electrical grain cleaner is designed for the farmer who operates his own silo operation. It offers an affordable means to optimize his sifting in order to achieve a better grading for his grain. The drum speed is electronically adjustable as is the sifting angle. Sieves can be adapted to meet the requirements of the client.

Implement characteristics:

- 380/240v static unit
- Complete with 'Cyclone separator & Asperator'
- Capacity: 60 - 200 ton/hour (Type of material determines speed/ton)
- Standard with 2 sets of sieves (According to client's needs)
