MOTHER BIN RANGE

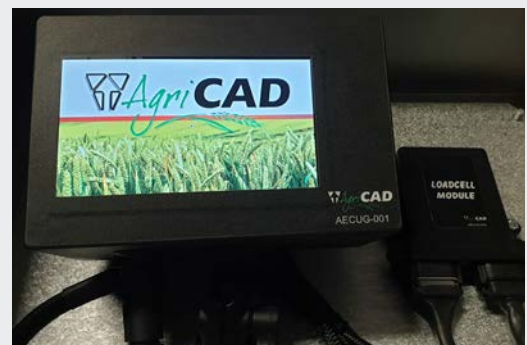

Manage and control your yield

The AgriCAD MB70C Mother Bins present the farmer an affordable solution for the challenges of handling bulk loads of grain during harvesting. Farm load contract becomes an executable option with a 58 ton buffer capacity. Grain can now easily be harvested in to the Mother bin in order to load trucks and trailers at a high discharge rate. The AgriCAD **electronic weigh system with its printer** optimizes effective control to prevent grain theft and improve book keeping

Implement characteristics:

- High discharge rate of 5 ton per minute
- 70 000 litre buffer capacity (58 ton)
(SG± 0,832 SG as published in 2017/18 SAGL report)
- 4.2m standard discharge height
- Flood light on discharge auger head optimizes night loading
- Tarpaulin for protection against elements
- Optional weigh system with printer
