SEED TREATER RANGE

Seed treating made easy

AgriCAD's electronic operated seed treater makes the seed treating process a breeze. Two models are available; the ST301 is a stand-alone implement whilst the ST06P is designed to be used with crates (Pro Boxes).

Modelle:

- ST301: Dry and one wet seed treatment
- ST301D: Dry and two wet seed treatment
- ST06P: Dry and one wet ProBox seed treatment
- ST06PD: Dry and two wet ProBox seed treatment

Implement characteristics:

- Controllable auger speed: 6 ton/hour capacity
- Simple calibration
- 3 sets of pipes for optimal inoculant application
- Easy transportation and operation
